## *Integrate+ : an example of a network of demonstration and training areas in Europe*

Per Lynge Jensen (Team Manager -The Nature Agency  
Ministry of Food and Environment, Denmark – Chair of integrate+ network)

**PALERMO | 11 NOVEMBRE 2019**

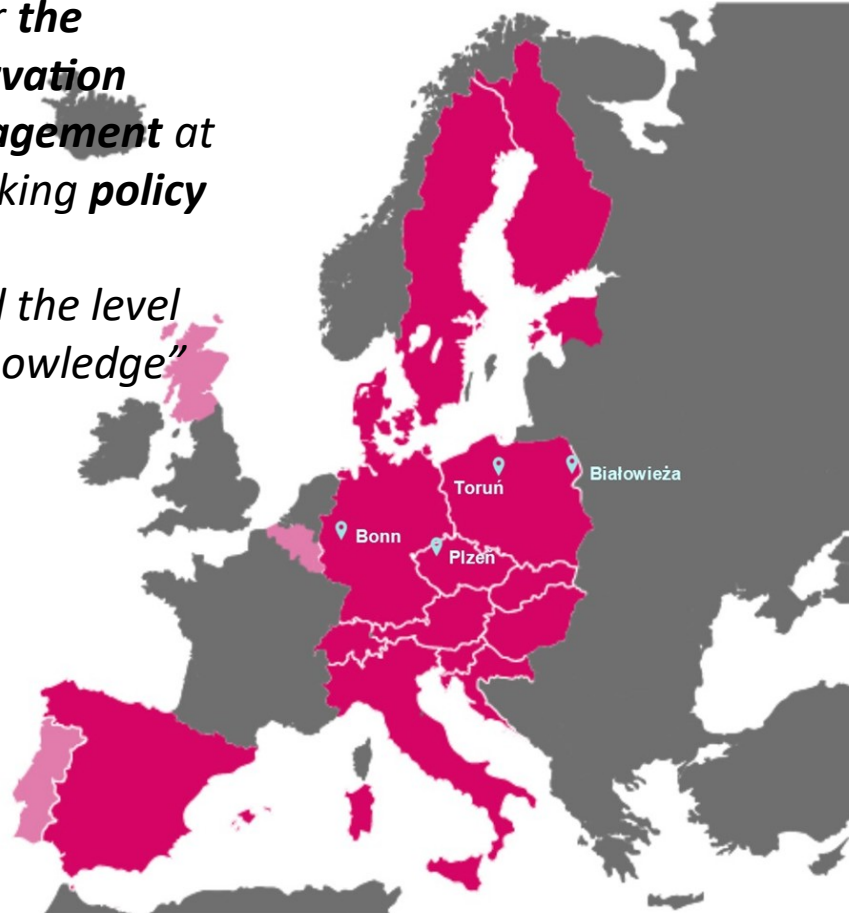

**LIFE E RETE NATURA 2000**

Dall'esperienza dei Progetti verso un modello condiviso per la Gestione Forestale

**LIFE AND NATURA 2000 NETWORK**

From Projects experience to a shared model for Forest Management

*“The European network INTEGRATE promotes and advances forest management approaches for **the integration of nature conservation into sustainable forest management** at three levels: the decision-making **policy level**, the level of forest **practitioners/managers**, and the level of **research and academic knowledge**”*

- Network member countries
- Network observer countries/regions

📍 Network meetings

**Bonn:** network kick-off

**Plzeň:** Combining ecology and economy

**Białowieża:** Strategies to deal with bark beetle out breaks

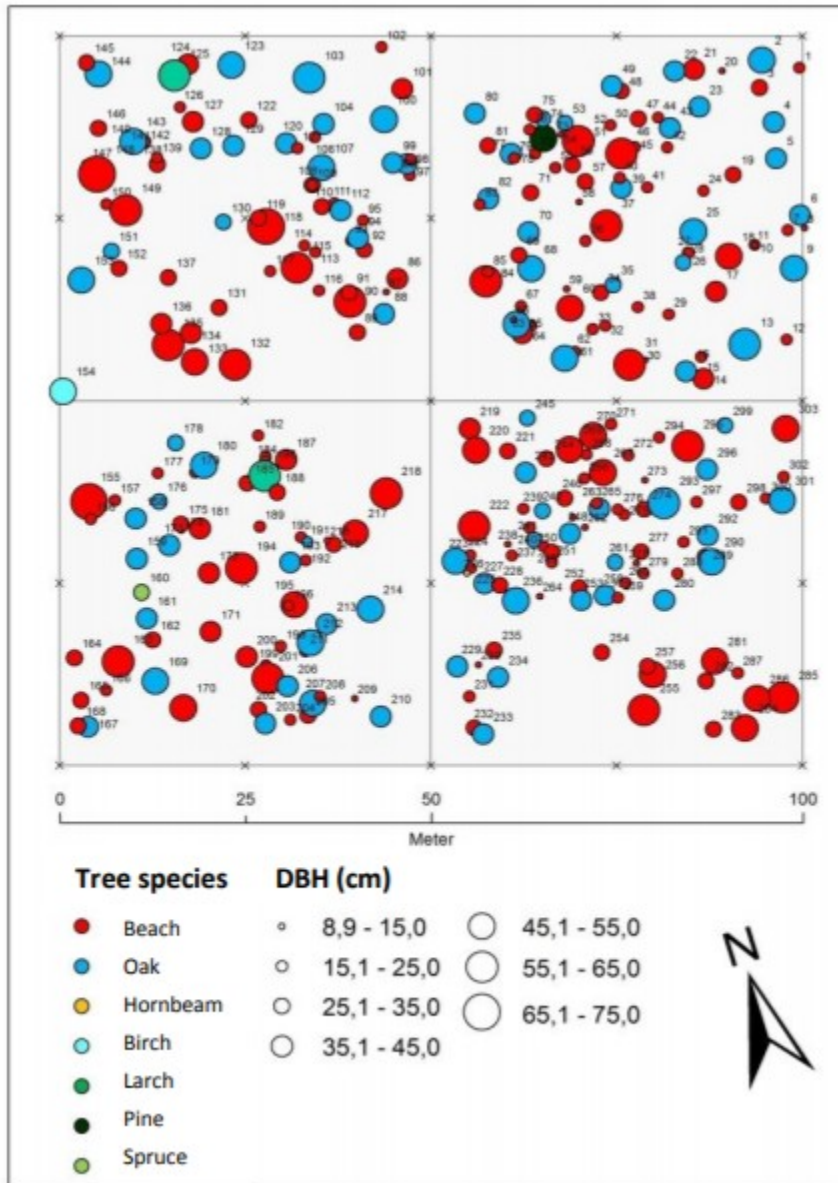

**Toruń:** Sustainable forest management post calamities

# Catalogue of tree microhabitats

Reference field list

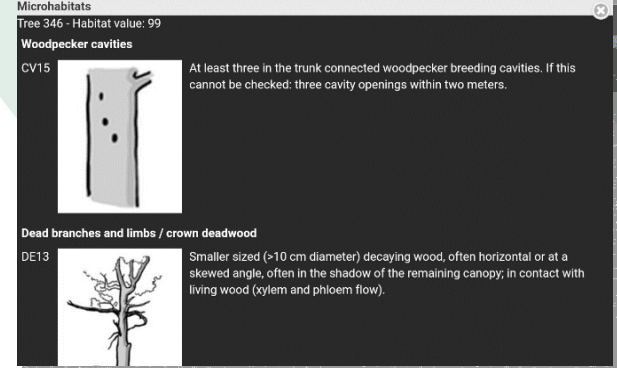

Marteloscopes are silvicultural training sites of usually one hectare in which all trees are numbered, mapped and recorded.

Using an evaluation and simulation software virtual tree selection exercises can be performed. The software allows to display the results of silvicultural interventions and future impacts for the stand.

Look into a mould cavity (adaped from Larrieu, 2014)

Woodpecker "flute"  
/ cavity string

Bark loss 25 - 600 cm<sup>2</sup>,  
decay stage < 3

Bark loss > 600 cm<sup>2</sup>,  
decay stage < 3
