## Foreste e cambiamenti climatici: il tavolo tecnico nazionale promosso da LIFE AforClimate e gli strumenti operativi e di gestione promossi da LIFE GoProFor

*Forests and climate changes: the national technical round table promoted by LIFE AforClimate, and operational and management instruments promoted by LIFE GoProFor*

Vittorio Garfi (Unimol)

Marcello Mionzo (DREAM)

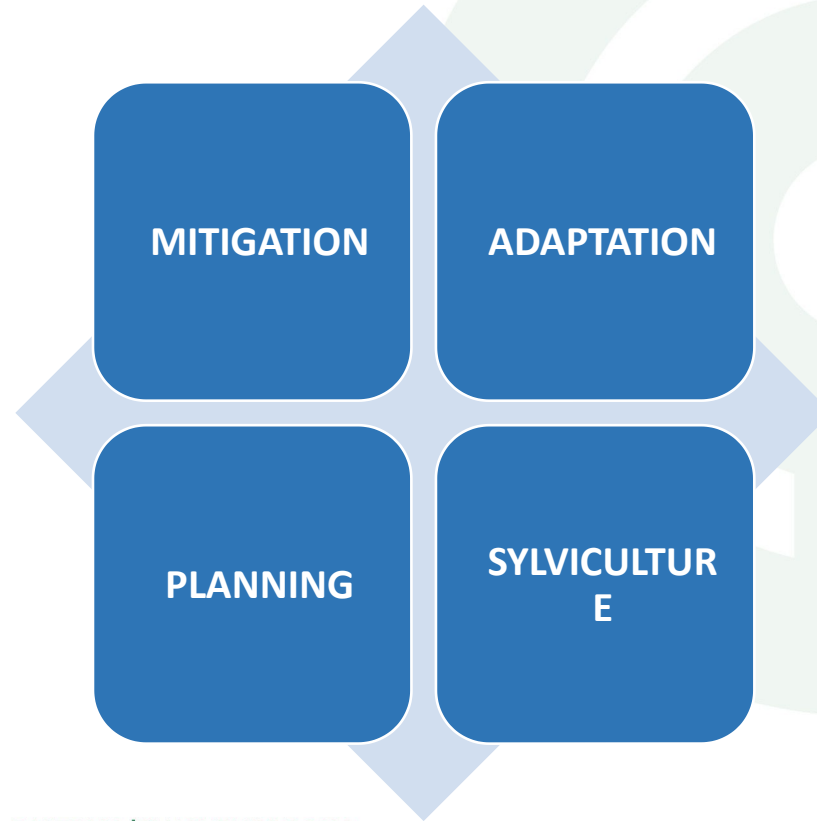

**LIFE E RETE NATURA 2000**

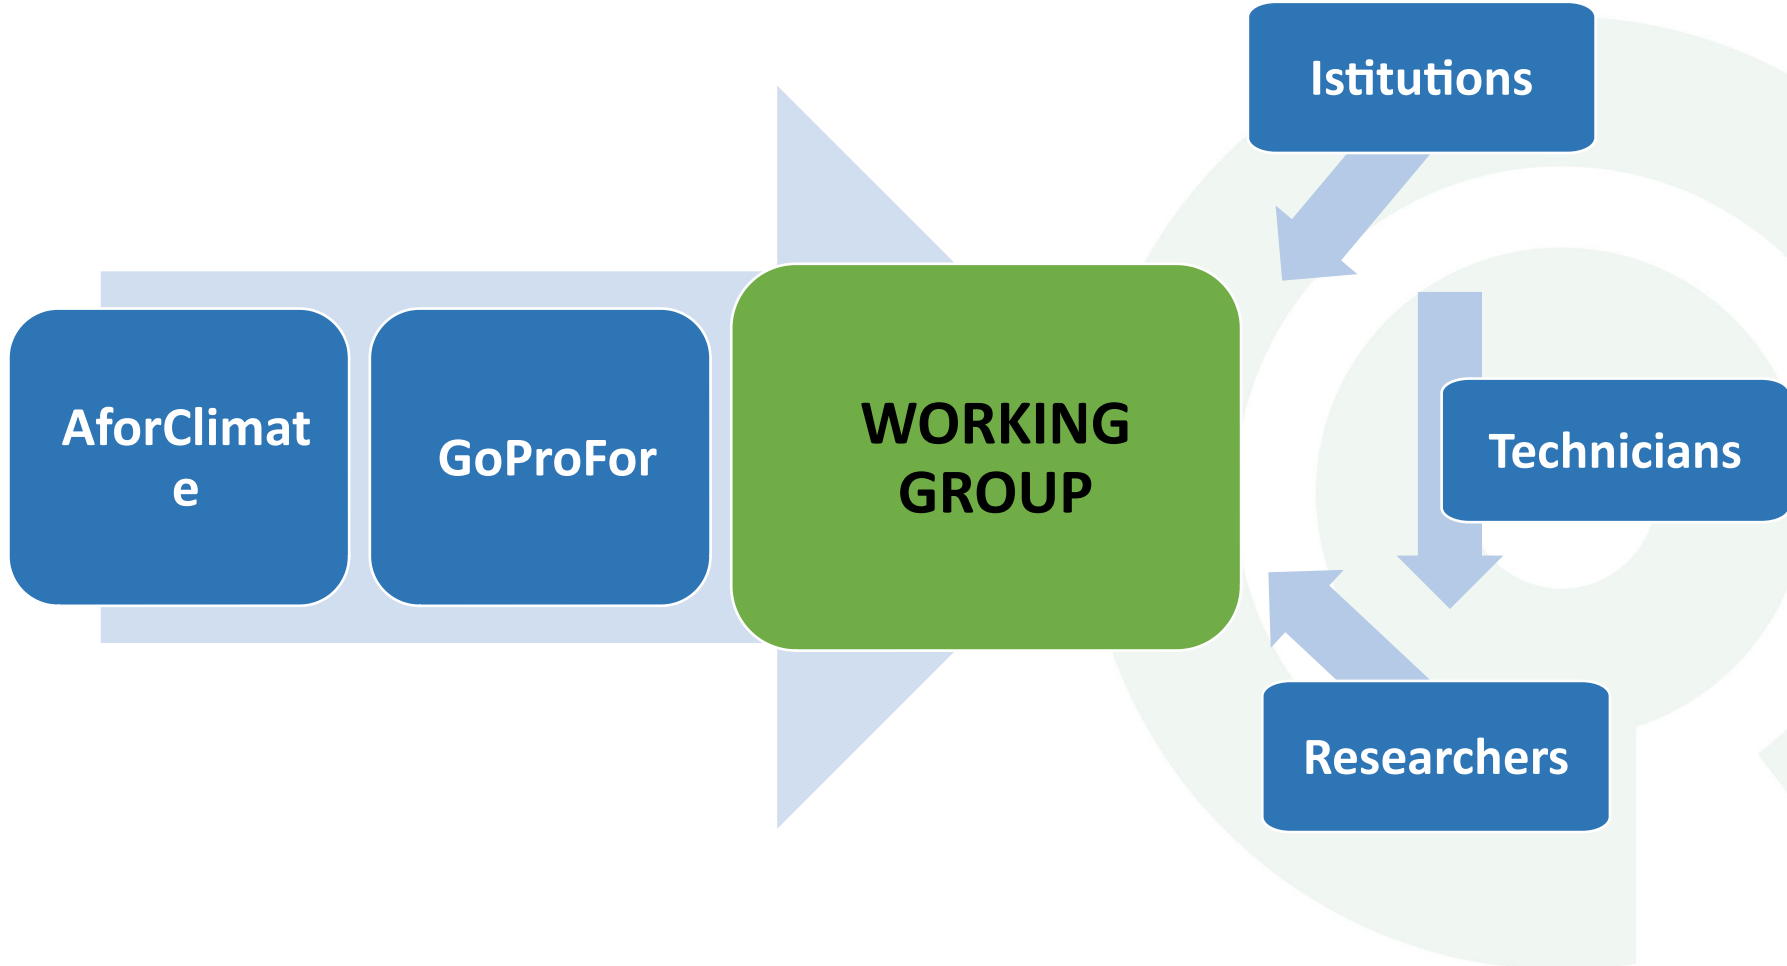

Dall'esperienza dei Progetti verso un modello condiviso per la Gestione Forestale

**LIFE AND NATURA 2000 NETWORK**  
From Projects experience to a shared model for Forest Management

In Italy there is no structured group of technicians, researchers and representatives of the public administration that compares and works, in an organic way and according to the different points of view on the theme: "**climate change and forest management**" proposing projects, lobbying, legislative changes, etc..

**WORKING  
GROUP**

**Definition of  
GUIDELINES**

**Main issues** that climate change involves for the management of national forests

**Lines of action** that should be implemented in the short and medium-long term to solve these problems

**Good practices** existing at national and Mediterranean level that can be valid examples for future activities

**Shared document,  
signed by the participants at the Table**

# Road map 2018-2019

November 2018

4<sup>th</sup> National Congress  
of Silviculture (Turin)

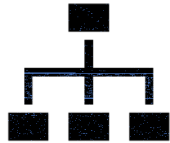

Presentation of the  
idea and road map

January 2019

Definition list of:
